CASE No. CJ-10-75
(JUDGE HLADIK)

**CLASS REPRESENTATIVES AND CLASS COUNSEL'S
BRIEF IN SUPPORT OF FINAL APPROVAL OF:
(1) CLASS SETTLEMENT, (2) NOTICE, AND
(3) PLAN OF ALLOCATION AND DISTRIBUTION**

Class Representatives and Class Counsel request the Court enter a Final Order and Judgment, which: (1) grants final approval of the proposed Settlement; (2) approves the sufficiency of the Settlement Class Notice process; (3) approves the Plan of Allocation and Distribution as fair, adequate, and reasonable (reserving for later resolution the filed Objections by prior Sub-Class 1 owners to the payment of all proceeds to the current Sub-Class 1 owners); and (4) grants any other relief the Court deems just and proper.

The Court's Role in the Settlement Approval Process

“The judicial role in reviewing a proposed settlement is critical, but limited to approving

the proposed settlement, disapproving it, or imposing conditions on it. The judge cannot rewrite the agreement.” Ann. Manual Complex Lit. (4th ed.), § 21.61.

To determine whether a proposed settlement is fair, reasonable, and adequate, the court must examine whether the interests of the class are better served by the settlement than by further litigation. . . . The lack of significant opposition may mean that the settlement meets the requirements of fairness, reasonableness, and adequacy. . . . [T]he judge must adopt the role of a skeptical client and critically examine the class certification elements, the proposed settlement terms, and procedures for implementation. [Emphasis added.] *Id.*

Presumption of Fairness

“The law favors settlement, particularly in class actions and other complex cases where substantial resources can be conserved by avoiding lengthy trials and appeals. Settlement is generally favored because it represents a compromise reached between the parties to the suit and relieves them, as well as the judicial system, of the costs and burdens of further litigation.” [Emphasis added.] 4 Newberg on Class Actions (5th ed.) § 13:44.¹

“[C]ourts prefer settlement to litigation. Because of that preference, a court will presume that a proposed class action settlement is fair when certain factors are present, particularly evidence that the settlement is the product of arms-length negotiation, untainted by collusion.” [Emphasis added.] 4 Newberg on Class Actions (5th ed.) § 13:45.

Litigation and Procedural Background

Douglas E. Burns and Terry L. Stowers have filed simultaneously herewith a Declaration

¹ “All that said, the legal system's preference for settlement must be tempered somewhat in the class action context because settlement of a class suit uniquely requires judicial approval. What that means is that there is a judicial function involved in overseeing settlement of the class action—safeguarding the interests of absent class members—that is triggered precisely because of a proposed settlement.” *Id.*

setting forth the litigation and procedural background of the Litigation² (“Declaration of B&S”).
See Declaration of B&S, ¶ 8-35, p. 4-16, incorporated herein by reference,

Summary of the Settlement Terms

The Declaration of B&S sets forth a summary of the settlement terms. *See* Declaration of B&S, ¶ 4-7, p. 2-4; ¶ 47-51, p. 21-22, incorporated herein by reference. **This Settlement involves over thirty-three thousand (33,000) putative Class Members** (*See* Affidavit of Markham Sherwood filed simultaneously herewith) and **approximately two thousand (2,000) Class Wells**, a copy of the “Class Well List” attached hereto as Exhibit “A”.

Final Approval of the Form, Content, and Manner of Notice to the Class

The form, content, and manner of the Notice to the Class also should be finally approved. 12 O.S. § 2023(C)(4) requires that notice of a settlement be “the best notice practicable under the circumstances, including individual notice to all members who can be identified through reasonable effort.” Additionally, § 2023 (E)(1) instructs courts to “direct notice in a reasonable manner to all class members who would be bound by the proposal.” The manner in which notice of a class action settlement is communicated to the class is a matter within the trial court’s discretion. *Bayhille*, 2006 OK CIV APP ¶ 23, 146 P.3d at 861. In terms of content, a settlement notice need only be reasonably calculated, under all of the circumstances, to apprise the interested parties of the pendency of the proposed settlement and to afford them an opportunity to present their objections. *See Mullane v. Cent. Hanover Bank & Trust Co.*, 339 U.S. 306, 314 (1950).

As part of the Order on Plan of Notice, the Court approved the Notice of Proposed Settlement of Class Action (the “Notice”). Kurtzman Carson Consultants, LLC (“KCC”) was retained by Class Counsel to act as the Notice Administrator in connection with this proposed

² Capitalized terms shall have the same meaning as utilized in the Settlement Agreement.

settlement and as the authorized agent to effect mailing of the Notice of Class Action and Proposed Settlement (the “Notice”) to members of the Class. For details of the execution of the Plan of Notice, *see* Declaration of B&S, ¶¶36-44, p. 16-20 and Affidavit of Markham Sherwood filed simultaneously herewith.

Opt-Outs and Objections to the Settlement

The Notice of Proposed Class Action Settlement was mailed to 33,890 individuals identified as possible class members. **We have received NO objections to the Settlement.** The Settlement Administrator/Court Clerk of Blaine County collectively have received between **250 and 300 opt outs** of the Settlement Class (*the Parties are currently reconciling the list of opt outs*), most of which were for individuals presently involved in pending litigation against Continental. Thus, approximately **99.1%** of Class Members have remained in the Class. *See* Report by Class Counsel of Class Member Filings (Opt-Outs & Objections).

The Settlement Represents a Fair and Reasonable Compromise of the Litigation

“An important factor in approving a proposed settlement is the opinion of experienced Class Counsel. Here, Class Counsel fully supports and endorses a Settlement that has a total value of at least \$107,300,000 to the Settlement Class. Class Counsel believes the Settlement is fair, reasonable, and adequate and should be approved. Class Counsel is aware of the risks and uncertainties that accompany proceeding to trial in this Litigation. The Settlement avoids the risk of receiving no recovery after long, difficult litigation and provides the Settlement Class with a substantial recovery, as well as binding changes to Continental’s royalty payment policies and procedures on Class wells. The possibility of either no recovery at all or a limited recovery was very real, especially in light of Continental’s defenses to the Settlement Class’ claims that would have to be overcome if the Litigation continued to trial. Through the \$49.8 million cash Settlement

to Sub-Class 1, plus the benefits conferred on Sub-Class 2 Class Members (with an estimated \$7.5 million value) and the Future Production Period benefits agreed to by Continental which extends into perpetuity, unless or until there is a change in the law (with a conservatively estimated net present value of at least \$50 million in the next 10 years), Class Counsel and Class Representative not only obtained a significant benefit for the Class, but also avoided the risk of a negative outcome. Therefore, Class Counsel fully supports the Settlement.” Declaration of B&S, ¶45, p.20. *See also* B&S, ¶46, p. 20-21; Declaration of Robert Gum, filed simultaneously herewith and incorporated herein.

The Settlement represents a fair and reasonable compromise of the Litigation. The Settlement should be finally approved and the Judgment attached to the Settlement Agreement as Exhibit “G” should be entered.

Approval of the Plan of Allocation and Distribution

The Court also should approve the proposed Plan of Allocation and Distribution as fair and reasonable. *See In re Sprint Corp. ERISA Litig*, 443 F. Supp 2d 1249, 1262 (D. Kan. 2006) (citing *In re Global Crossing Sec. & ERISA Litig*, 225 F.R.D. 436, 462 (S.D.N.Y. 2004)). When a plan of allocation is “formulated by competent and experienced counsel,” as is the case here, the plan need only have a “reasonable and rational basis to be legally adequate.” *Ponca Tribe of Indians of Okla. V. Cont’l Carbon Co.*, No. 05-445 (C), 2009 WL 2836508, at *2 (W.D. Okla. July 31, 2009).

“Class Counsel submit, and Class Administrator Barbara Ley opines, that the proposed Plan of Allocation and Distribution attached to the Settlement Agreement as Exhibit “D” is fair, reasonable, and adequate, and in the best interest of the Class. *See* Affidavit of Barbara A. Ley filed simultaneously herewith.” Declaration of B&S, ¶52, p. 23. For details of the Plan of

Allocation and Distribution, *see* Plan of Allocation and Distribution, attached to the Settlement Agreement as Exhibit “D”; Declaration of B&S, ¶¶47-64, p. 21-27; and Declaration of Barbara Ley. The Plan of Allocation and Distribution should be approved by the Court,

Conclusion

For the foregoing reasons, Class Representatives and Class Counsel respectfully requests the Court: (1) enter the Final Order and Judgment attached to Settlement Agreement as Exhibit “G”; and (2) approve the Plan of Allocation and Distribution; and (3) grant any other relief the Court deems just and proper.

Respectfully submitted,
